

United Nations Sustainable Development Goals

SUSTAINABLE DEVELOPMENT GOALS

The United Nations has set 17 interconnected Sustainable Development Goals for the global community to hit by 2030. Blue Bear partners with companies that operationalize these goals in the process of building important and valuable businesses.

Impact is Intrinsic to Our Returns-Driven Investment Strategy

BLUE BEAR CAPITAL

Blue Bear's Focus on Digital Solutions for the Energy and Climate Industries Makes Environmental, Social, and Governance ("ESG") Impact Intrinsic to Our Returns-Driven Investment Strategy.

Blue Bear Companies Operationalize
UN Sustainable Development Goals

Blue Bear Companies Operationalize UN Sustainable Development Goals

UNSDG	Goal	Blue Bear Portfolio Companies
	Ensure availability and sustainable management of water and sanitation for all.	        
	Ensure access to affordable, reliable, sustainable and modern energy for all.	                      
	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.	                    

Blue Bear Companies Operationalize UN Sustainable Development Goals

UNSDG	Goal	Blue Bear Portfolio Companies			
	Build resilient infrastructure, promote inclusive and sustainable industrialization, and foster innovation.				
					
					
					
					
					
					
					
					
					
	Make cities and human settlements inclusive, safe, resilient, and sustainable.				
					
					

Blue Bear Companies Operationalize UN Sustainable Development Goals

UNSDG	Goal	Blue Bear Portfolio Companies
	Ensure sustainable consumption and production patterns.	                    
	Take urgent action to combat climate change and its impacts by regulating emissions and promoting developments in renewable energy.	              
	Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss.	   

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

MineralSoft is a cloud-based software-as-a-service business providing data aggregation and management for the underserved market of upstream minority interest owners. The company tracks mineral rights, royalties, land rights, performance and commodity pricing data to ensure owners receive correct payment (industry estimates ~10% underpayment) while optimizing workflow and building unique datasets. MineralSoft is based in Austin, Texas.

Operationalized Goal Targets

9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Omnidian provides remote monitoring and diagnostics software for large portfolios of distributed solar power assets. The company's focus on operations and maintenance technology allows superior uptime and end-to-end performance assurance for developers, investors, and owners across the distributed solar industry. Omnidian is based in Seattle, Washington, and San Francisco, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
7 AFFORDABLE AND CLEAN ENERGY		7.a By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology
8 DECENT WORK AND ECONOMIC GROWTH		8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Mission Secure is an industrial cyber defense company providing asset-level protection to critical infrastructure across the energy, power, transportation, and defense industries. The company's integrated hardware-plus-software solutions can be deployed on existing control systems for cost-effective monitoring, defense, and control against active cyber attacks and latent threats. Mission Secure is based in Charlottesville, Virginia and Houston, Texas.

Operationalized Goal Targets

9 INDUSTRIES, INNOVATION
AND INFRASTRUCTURE

- 9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Shoreline delivers industrial analytics and simulation software tailored for the wind and hydro power industries. Shoreline's technology lets operators, field services companies, and financing partners review complex asset development and operations scenarios at unprecedented speed, enabling better capital allocation and supply chain decisions. Shoreline is based in Stavanger, Norway with offices in Germany and Denmark.

Operationalized Goal Targets

6 CLEAN WATER AND SANITATION		6.4	By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
6 CLEAN WATER AND SANITATION		6.5	By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate
6 CLEAN WATER AND SANITATION		6.a	By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies
7 AFFORDABLE AND CLEAN ENERGY		7.2	By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3	By 2030, double the global rate of improvement in energy efficiency
7 AFFORDABLE AND CLEAN ENERGY		7.a	By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology
8 DECENT WORK AND ECONOMIC GROWTH		8.2	Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1	Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4	By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2	By 2030, achieve the sustainable management and efficient use of natural resources

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

element

Element Analytics is an industrial data analytics company bridging the gap between sensors and business insights. Element's software processes and integrates large volumes of data from a wide variety of sources to generate reliable digital models of complex equipment and systems. This ensures "artificial intelligence" is based on consistent and reliable inputs. Element is based in Oakland, California.

Operationalized Goal Targets

9.3 Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets

9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

12.2 By 2030, achieve the sustainable management and efficient use of natural resources

12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment

12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

FreeWire Technologies provides mobile energy storage solutions, enabling “electrification beyond the electric grid”. The company combines unique supply chain and distribution channel partnerships with innovative software engineering to deliver battery-powered electricity into large commercial and industrial markets, which have traditionally been dominated by diesel generators. FreeWire also serves the growing electric vehicle charging market with on-demand and modular charging solutions. FreeWire is based in San Leandro, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
7 AFFORDABLE AND CLEAN ENERGY		7.a By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources

SUSTAINABLE DEVELOPMENT GOALS

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

GoExpedi is a supply chain procurement and distribution platform featuring an e-commerce marketplace for parts and equipment in the energy industry. GoExpedi's platform covers over 200,000 SKUs and delivers unprecedented transparency, supply chain analytics, and customer / supplier discover potential for manufacturers, service providers, and operators across the industry. GoExpedi is based in Houston, Texas.

Operationalized Goal Targets

9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries

12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Everactive (formerly known as PsiKick) designs and delivers battery-free industrial IoT sensor and analytics solutions. The company's technology allows for low cost, long-lived, and intelligent instrumentation of industrial operations, such as steam trap and motor monitoring, that have previously been too expensive or dangerous to connect into the industrial internet. Everactive is based in Santa Clara, California and Charlottesville, Virginia.

Operationalized Goal Targets

6 CLEAN WATER AND SANITATION		6.5	By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate
7 AFFORDABLE AND CLEAN ENERGY		7.3	By 2030, double the global rate of improvement in energy efficiency
8 DECENT WORK AND ECONOMIC GROWTH		8.2	Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1	Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4	By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2	By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.4	By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment

Raptor Maps' AI-powered platform helps owners of utility-scale and commercial solar PV assets increase AUM and improve long-term system performance. Their flagship product, a scalable system of record, enables robots and humans to detect root cause, prioritize issues, and provide undeniable proof to stakeholders to maximize portfolio returns. With 8,000 solar farms digitized and over 100 GW of solar PV analyzed, Raptor Maps leads the way in facilitating the management of large-scale solar to decarbonize our grid. Raptor Maps is based in Boston, Massachusetts.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
7 AFFORDABLE AND CLEAN ENERGY		7.a By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology
8 DECENT WORK AND ECONOMIC GROWTH		8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Voyager is a multi-party collaboration and workflow management solution for the maritime value chain. The company's technology helps shorten voyage times, reduce working capital requirements, and improve operational transparency for shippers, vessels owners, and operators across the commodity bulk shipping industry. Voyager is based in Houston, Texas.

Operationalized Goal Targets

9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle
15 LIFE ON LAND		15.8 By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems and control or eradicate the priority species
15 LIFE ON LAND		15.a Mobilize and significantly increase financial resources from all sources to conserve and sustainably use biodiversity and ecosystems

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Copper Labs builds internet-of-things solutions that help utilities and supply chain partners leverage real-time energy data. Copper technology enables data access and analytics from existing electric, gas and water meters so utilities and network operators can address demand variability, perform outage management, and accelerate energy efficiency. Copper Labs is based in Boulder, Colorado.

Operationalized Goal Targets

6 CLEAN WATER AND SANITATION		6.2	By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations
6 CLEAN WATER AND SANITATION		6.4	By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
6 CLEAN WATER AND SANITATION		6.5	By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate
7 AFFORDABLE AND CLEAN ENERGY		7.2	By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3	By 2030, double the global rate of improvement in energy efficiency
7 AFFORDABLE AND CLEAN ENERGY		7.a	By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology
8 DECENT WORK AND ECONOMIC GROWTH		8.4	Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1	Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4	By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2	By 2030, achieve the sustainable management and efficient use of natural resources

SUSTAINABLE DEVELOPMENT GOALS

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Transect is a digital platform that automates environmental work for large energy and infrastructure projects in both development and maintenance. The company's technology combines public and proprietary datasets, industry expertise, trigger-based algorithms, and site-specific context to accurately define environmental risk and regulatory or permitting issues related to endangered species, wetlands, aquifers, right-of-ways, and more. The Transect team has over 25 years of experience managing environmental compliance and permitting built into the technology. Transect is based in San Antonio, Texas.

Operationalized Goal Targets

6 CLEAN WATER AND SANITATION		6.1 By 2030, achieve universal and equitable access to safe and affordable drinking water for all
6 CLEAN WATER AND SANITATION		6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally
6 CLEAN WATER AND SANITATION		6.b Support and strengthen the participation of local communities in improving water and sanitation management
7 AFFORDABLE AND CLEAN ENERGY		7.1 By 2030, ensure universal access to affordable, reliable and modern energy services
7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
8 DECENT WORK AND ECONOMIC GROWTH		8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
15 LIFE ON LAND		15.1 By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements
15 LIFE ON LAND		15.2 By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally
15 LIFE ON LAND		15.5 Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species

Datch provides voice interface technology for industrial operations including sustainable power generation and electric vehicle manufacturing. The company's voice-visual technology brings wider context and nuance to human and digital connections, improving the speed, quality, and experience of work for frontline workers, while accelerating knowledge capture and sharing for the organization. Datch is based in San Francisco, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
8 DECENT WORK AND ECONOMIC GROWTH		8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
8 DECENT WORK AND ECONOMIC GROWTH		8.8 Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Mira is a visual computing platform empowering frontline industrial workers with hands-free real-time access to remote experts and augmented reality ("AR") workflows. Mira runs on the smartphones that workers already carry and that enterprise IT departments have already permissioned, removing onerous hardware costs and integrations typically associated with AR. Mira is based in Los Angeles, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
8 DECENT WORK AND ECONOMIC GROWTH		8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
8 DECENT WORK AND ECONOMIC GROWTH		8.8 Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle

The First Resonance factory operating system brings the extremely dynamic product development, testing, and manufacturing software principles that enabled rapid innovation at SpaceX out into the world – including to leading hardware companies driving the energy transition. “Move fast and don’t break things.” First Resonance is based in Los Angeles, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.1 By 2030, ensure universal access to affordable, reliable and modern energy services
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
8 DECENT WORK AND ECONOMIC GROWTH		8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.5 Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending

Urbint provides AI-based solutions to identify, score and prevent safety risks for critical infrastructure and worker safety. The company creates models based on unique, highly scalable datasets and the latest safety science to prevent gas line explosions, wildfires, electric line shocks, water main disruptions, and other serious infrastructure threats. Urbint is based in New York City.

Operationalized Goal Targets

6 CLEAN WATER AND SANITATION		6.1	By 2030, achieve universal and equitable access to safe and affordable drinking water for all
7 AFFORDABLE AND CLEAN ENERGY		7.3	By 2030, double the global rate of improvement in energy efficiency
8 DECENT WORK AND ECONOMIC GROWTH		8.2	Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
8 DECENT WORK AND ECONOMIC GROWTH		8.8	Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1	Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2	Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4	By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.6	Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle
13 CLIMATE ACTION		13.1	Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
15 LIFE ON LAND		15.1	By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements

EnMass Energy provides a digital platform for the optimization of procurement and operations of waste-to-value supply chains. The company's platform creates transparency and efficiency for waste streams turning an undervalued feedstock into a commodity. EnMass is based in Durham, North Carolina.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
8 DECENT WORK AND ECONOMIC GROWTH		8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle
13 CLIMATE ACTION		13.2 Integrate climate change measures into national policies, strategies and planning

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

insurers address the massive gaps opening up in reinsurance markets as, for the first time, insurer's losses caused by extreme weather, like severe thunderstorms, exceed losses from catastrophes, like hurricanes and earthquakes. The Demex team combines expertise in traditional reinsurance product design and parametric insurance with expertise in weather data and modeling to create the solution: a parametric reinsurance product that insurers can use to precisely target their exposure to non-catastrophic weather events. Demex won the 'Insurtech Product of the Year' at the 2024 Insurance Insider Honors and 'Innovation in Parametrics (Weather and NatCat - Private Sector)' at the global Parametric Insurance Summit 2024.

Operationalized Goal Targets

8 DECENT WORK AND ECONOMIC GROWTH	8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services
8 DECENT WORK AND ECONOMIC GROWTH	8.10 Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE	9.3 Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets
11 SUSTAINABLE CITIES AND COMMUNITIES	11.5 By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations
11 SUSTAINABLE CITIES AND COMMUNITIES	11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels
13 CLIMATE ACTION	13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Pani Energy is an industrial AI business improving operational efficiency and clean water yield while reducing energy intensity at desalination and wastewater treatment facilities around the world. Pani is based in Victoria, British Columbia, Canada.

Operationalized Goal Targets

6 CLEAN WATER AND SANITATION		6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally
6 CLEAN WATER AND SANITATION		6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
6 CLEAN WATER AND SANITATION		6.5 By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate
6 CLEAN WATER AND SANITATION		6.a By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.a Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Abatable is a carbon offsetting procurement platform which connects companies with carbon project developers of high quality carbon offsets. Abatable facilitates procurement decisions by offering third party quality assessments of projects and by standardizing multi-year purchase agreements and an automated RFP platform. Abatable is based in London.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.b By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing States, and land-locked developing countries, in accordance with their respective programmes of support
8 DECENT WORK AND ECONOMIC GROWTH		8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle
13 CLIMATE ACTION		13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Chargetrip is the world's leading Smart EV Routing platform. Their unique routing engine accurately predicts the energy consumption for all EVs, under all driving scenarios. Proprietary algorithms then compute the optimal route from A to B (to C, to D, ..), including the optimal charge stations in between. Built-in predictive models minimize total travel-time and total travel-costs. Their EV routing service is exposed as a SaaS-based API that effortlessly slots into existing telemetry and navigation solutions, optimizing the UX for EV-drivers and the total cost of ownership of electrified fleets; owned, leased, rented, shared and autonomous. Chargetrip is based in Amsterdam, The Netherlands.

Operationalized Goal Targets

9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
11 SUSTAINABLE CITIES AND COMMUNITIES		11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management
11 SUSTAINABLE CITIES AND COMMUNITIES		11.a Support positive economic, social and environmental links between urban, per-urban and rural areas by strengthening national and regional development planning
13 CLIMATE ACTION		13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Accure provides energy storage performance and asset management software for stationary and mobile applications. Accure's analytics products help battery asset managers like operators of home-storage, grid-scale energy storage, automotive companies and insurances businesses to monitor battery health, safety and warranty in real time throughout the lifecycle – without physically touching the assets. Accure is based in Aachen, Germany.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.1 By 2030, ensure universal access to affordable, reliable and modern energy services
7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
8 DECENT WORK AND ECONOMIC GROWTH		8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse
13 CLIMATE ACTION		13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Curo helps fleet vehicles to electrify and scale at a fraction of the cost and time, whilst providing contracted revenue and streamlining management for EV charging and parking asset owners. The team achieves this by creating and managing virtual depots from existing infrastructure. Curo is based in San Francisco, California.

Operationalized Goal Targets

8 DECENT WORK AND ECONOMIC GROWTH		8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources
13 CLIMATE ACTION		13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Lastwall is building new internet security systems, broadly based on new ways of authenticating users and strongly enforcing identity. Lastwall is based in Vancouver, British Columbia, Canada.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

AXIOM CLOUD

Axiom Cloud addresses coldchain customers' single largest energy, maintenance, and sustainability challenges. Axiom software provides a platform to identify refrigeration problems before they occur, autonomously solve refrigeration maintenance and energy problems, and help customers save on their energy bill through virtual battery enablement. Axiom Cloud is based in Oakland, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.1 By 2030, ensure universal access to affordable, reliable and modern energy services
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Hydrosat is a geospatial analytics company that uses a broad spectrum of space imagery to create valuable agricultural, environmental and defense products. The Company collects thermal infrared data from space-based sensors and incorporates machine learning to provide a suite of analytics software for use in climate mitigation and adaptation. Hydrosat is based in Washington, DC.

Operationalized Goal Targets

9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.b Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities
11 SUSTAINABLE CITIES AND COMMUNITIES		11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels
13 CLIMATE ACTION		13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
15 LIFE ON LAND		15.3 By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

TruckLabs offers a hardware and software integrated solution to optimize fuel use or battery range for the trucking industry. TruckLabs' platform features equipment that can automatically close the gap between the truck tractor and trailer to increase aerodynamics and monitor truck data to optimize efficiency across vehicles, routes, drivers, and fleets. TruckLabs is based in Phoenix, Arizona.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
8 DECENT WORK AND ECONOMIC GROWTH		8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
11 SUSTAINABLE CITIES AND COMMUNITIES		11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons
11 SUSTAINABLE CITIES AND COMMUNITIES		11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Chargerhelp is a data-driven operations and maintenance service provider for electric vehicle charging stations. Their solution improves EV charger reliability through its remote diagnostics, dispatch software, and on-demand technician platform. The company also provides a national workforce development program to train EV technicians. ChargerHelp! is based in Los Angeles, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.1	By 2030, ensure universal access to affordable, reliable and modern energy services
8 DECENT WORK AND ECONOMIC GROWTH		8.2	Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
8 DECENT WORK AND ECONOMIC GROWTH		8.5	By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value
8 DECENT WORK AND ECONOMIC GROWTH		8.6	By 2020, substantially reduce the proportion of youth not in employment, education or training
8 DECENT WORK AND ECONOMIC GROWTH		8.10	Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4	By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.b	Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities
11 SUSTAINABLE CITIES AND COMMUNITIES		11.2	By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons
13 CLIMATE ACTION		13.1	Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Pioneer is building an AI-native growth platform for industrial and climate-tech companies, enabling lean commercial teams to identify and engage customers, strategic partners, suppliers, grant opportunities, and other ecosystem stakeholders at scale. The platform automates deep company research, maps relevant decision-makers and champions, and generates highly tailored outreach workflows - compressing weeks of business development work into minutes. Pioneer is based in San Francisco, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.1	By 2030, ensure universal access to affordable, reliable and modern energy services
7 AFFORDABLE AND CLEAN ENERGY		7.2	By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3	By 2030, double the global rate of improvement in energy efficiency
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1	Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2	Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4	By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2	By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.7	Promote public procurement practices that are sustainable, in accordance with national policies and priorities

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

SKOON

Skoon is an online marketplace and asset management software for electrified equipment. Their platform serves as a digital asset management hub where equipment providers can optimize utilization and users get access, training, and reporting to the best suitable systems to power their operations. The company is serving construction, film studios, utilities, first responders, industrial sites and industrial ports. Skoon is based in Rotterdam, The Netherlands.

Operationalized Goal Targets

7	AFFORDABLE AND CLEAN ENERGY		7.1	By 2030, ensure universal access to affordable, reliable and modern energy services
7	AFFORDABLE AND CLEAN ENERGY		7.2	By 2030, increase substantially the share of renewable energy in the global energy mix
7	AFFORDABLE AND CLEAN ENERGY		7.3	By 2030, double the global rate of improvement in energy efficiency
9	INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1	Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9	INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.2	Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
9	INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4	By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12	RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2	By 2030, achieve the sustainable management and efficient use of natural resources
12	RESPONSIBLE CONSUMPTION AND PRODUCTION		12.7	Promote public procurement practices that are sustainable, in accordance with national policies and priorities

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Delos is a specialty AI-enabled insurance company with climate and catastrophe expertise vertically integrated into all levels including underwriting, pricing, and portfolio management. Initially focused on wildfire risk, Delos' proprietary AI risk modeling enables profitable protection in regions that legacy providers are exiting, benefiting both homeowners and insurers. Delos is based in San Francisco, California.

Operationalized Goal Targets

9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

11.4 Strengthen efforts to protect and safeguard the world's cultural and natural heritage

11.5 By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations

13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries

13.2 Integrate climate change measures into national policies, strategies and planning

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

apolitical

Apolitical is a training, knowledge sharing, and networking platform for government and policy professionals with an initial focus on informing climate and artificial intelligence policymaking. The company improves knowledge sharing and best practice discovery and adoption in the underserved \$28 billion global online government learning market. Apolitical is based in London.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.a	By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology
10 REDUCED INEQUALITIES		10.3	Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard
13 CLIMATE ACTION		13.2	Integrate climate change measures into national policies, strategies and planning
13 CLIMATE ACTION		13.3	Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning
16 PEACE, JUSTICE AND STRONG INSTITUTIONS		16.6	Develop effective, accountable and transparent institutions at all levels
16 PEACE, JUSTICE AND STRONG INSTITUTIONS		16.7	Ensure responsive, inclusive, participatory and representative decision-making at all levels
17 PARTNERSHIPS FOR THE GOALS		17.14	Enhance policy coherence for sustainable development
17 PARTNERSHIPS FOR THE GOALS		17.15	Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development
17 PARTNERSHIPS FOR THE GOALS		17.16	Enhance the global partnership for sustainable development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the sustainable development goals in all countries, in particular developing countries
17 PARTNERSHIPS FOR THE GOALS		17.17	Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships

Warp is a digital logistics platform that stitches together underutilized transportation capacity from different providers into an integrated delivery network. They are revolutionizing middle mile freight with an asset-less, proprietary technology-driven network and operating system. Warp is located in Los Angeles, CA.

Operationalized Goal Targets

8 DECENT WORK AND ECONOMIC GROWTH 	8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
8 DECENT WORK AND ECONOMIC GROWTH 	8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services
8 DECENT WORK AND ECONOMIC GROWTH 	8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-year framework of programmes on sustainable consumption and production, with developed countries taking the lead
8 DECENT WORK AND ECONOMIC GROWTH 	8.8 Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE 	9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE 	9.3 Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets
11 SUSTAINABLE CITIES AND COMMUNITIES 	11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons
11 SUSTAINABLE CITIES AND COMMUNITIES 	11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management

Topanga is an enterprise food-service technology company dedicated to reducing food and packaging waste in culinary operations. Topanga's solutions provide functional data and seamless integration, empowering kitchens to reduce costs and enhance sustainability. Topanga is based in Los Angeles, CA.

Operationalized Goal Targets

6 CLEAN WATER AND SANITATION		6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally
6 CLEAN WATER AND SANITATION		6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.8 By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature
13 CLIMATE ACTION		13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Splight uses AI-driven software to unlock more power transmission capacity from existing grid infrastructure while improving grid reliability and flexibility. Its technology leverages real-time controls to transform any inverter-based resource into a dynamic, grid-supporting asset capable of responding to congestion contingencies and reducing curtailment. Splight is based in San Francisco, California.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.1 By 2030, ensure universal access to affordable, reliable and modern energy services
7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
11 SUSTAINABLE CITIES AND COMMUNITIES		11.3 By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries
13 CLIMATE ACTION		13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
13 CLIMATE ACTION		13.2 Integrate climate change measures into national policies, strategies and planning

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Longview is building an agentic home restoration services platform to reduce the need to fully rebuild homes after climate disasters or damages. By combining AI-powered back-office automation with embedded field operations, Longview restores damaged homes faster and at lower cost across a growing network restoration service firms. Longview is based in Nashville, TN.

Operationalized Goal Targets

9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

11.5 By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations

11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels

12.2 By 2030, achieve the sustainable management and efficient use of natural resources

13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries

13.2 Integrate climate change measures into national policies, strategies and planning

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Nuclearn develops AI software to modernize operations, engineering, and regulatory workflows at nuclear power plants. Built with deep domain expertise and embedded in daily plant operations at dozens of US reactor sites, Nuclearn helps utilities reduce O&M costs, improve uptime, and strengthen compliance. Nuclearn is based in Phoenix, Arizona.

Operationalized Goal Targets

7 AFFORDABLE AND CLEAN ENERGY		7.1 By 2030, ensure universal access to affordable, reliable and modern energy services
7 AFFORDABLE AND CLEAN ENERGY		7.2 By 2030, increase substantially the share of renewable energy in the global energy mix
7 AFFORDABLE AND CLEAN ENERGY		7.3 By 2030, double the global rate of improvement in energy efficiency
8 DECENT WORK AND ECONOMIC GROWTH		8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Korial provides AI-powered software for autonomous inspection robots operating in hazardous and remote industrial environments. Its hardware-agnostic platform equips ground and aerial robots with navigation, edge processing, and AI analytics for tasks such as leak detection, emissions monitoring, and predictive maintenance. The platform supports mixed fleets from vendors like Boston Dynamics, ExRobotics, DJI, and ANYbotics –enabling continuous inspection and seamless integration with customer systems and digital twins. Korial is based in Darmstadt, Germany.

Operationalized Goal Targets

8 DECENT WORK AND ECONOMIC GROWTH 	8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE 	9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities
12 RESPONSIBLE CONSUMPTION AND PRODUCTION 	12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment
12 RESPONSIBLE CONSUMPTION AND PRODUCTION 	12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse

SUSTAINABLE DEVELOPMENT GOALS

Development Goals by Blue Bear Portfolio Company

Every one of the companies in our portfolio work to fulfill unique portions of the targets set forth. Find below a full explanation of how each of Blue Bear's portfolio companies are making strides in these sectors.

Avalo is a computational crop breeding company using interpretable machine learning and vertical integration to accelerate the development of climate-resilient, lower-input crops. Avalo's Rapid Evolution Platform compresses breeding timelines by years without gene editing. The company is commercializing in cotton and sugarcane through direct partnerships with global brands and supply chain leaders and is building a platform extensible across food, fiber, and materials markets. Avalo is based in Durham, North Carolina.

Operationalized Goal Targets

12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.2 By 2030, achieve the sustainable management and efficient use of natural resources
12 RESPONSIBLE CONSUMPTION AND PRODUCTION		12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses
6 CLEAN WATER AND SANITATION		6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
9 INDUSTRIES, INNOVATION AND INFRASTRUCTURE		9.5 Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending
13 CLIMATE ACTION		13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
